Any attempt to decrypt the document protection or copying the information mentioned here, unauthorized reprint or use of this material is prohibited and will make you exhibited to legal repercussions and SRS and/or contract cancellation.

2. Business flow

2.1. Business background

<Describe the analysis process that has been made before designing the system. Ex: The approach to integrate our system was to transform all of the paper work in the current inventory management to be a systematic process that saves time, money and human power...etc.>

2.2. Main Features

<Write a brief Description on the challenges that has been solved while implementing the system and if there are any business analysis that explains the estimation of how this system will improve the business flow and process (Flow charts, Pie charts, Tables...etc.).>

2.2.1. Feature 1

<Describe the feature from the business point of view in a paragraph or two with no further details.>

2.2.2. Feature 2

<Describe the feature from the business point of view in a paragraph or two with no further details.>
